

A.S.PARTNER

## 2<sup>nd</sup> Webcasting seminar output

A.S.Partner, s. r. o. in cooperation with Mesto Vrútky organized Webcasting Seminar on January 29<sup>th</sup>, 2008 in Council Hall of Mesto Vrútky. 12 delegates from 7 local authorities from north-west part of Slovakia have participated at the seminar.

During the presentation about Webcasting system was introduced project eParticipate as well as company Public-i – producer of the Webcasting systems. The most benefits for citizens, Council members as well as office of the town were presented.

After while of the theory the Chief of the City of Vrútky informed participants about his experience with Webcasting system in City of Vrútky and the benefits, which city has from using this system.

Peter Kolesár from City of Vrútky (responsible for Webcasting at the office) performs a short demonstration of the system for participants. His presentation was very interesting, while participants have a lot of questions, which were answered at the place.

The seminar was very interesting, while during the informal discussions with participants, all of them wanted to have a similar presentation at their cities. We agreed with them for upcoming period to realize visits at their cities.
